

## For custom-built stands: Displaying your stand number

For better orientation for everyone, please display these signs prominently on your stand.

- Slide the signs into the holder and attach them directly to your stand using the adhesives.
- The signs must be attached at a height of 2.36 m (top edge of sign) on a wall facing the main aisle.
- Peninsular, corner, or island stands: Please attach facing the main aisle with the corresponding aisle letter.
- If there is no wall along the aisle, please mount as close as possible to the aisle and clearly visible from there.
